Board of Directors, Asian Business Aviation Association (AsBAA)
Level 35, Two Pacific Place
88 Queensway, Admiralty, Hong Kong

Dear Members of the AsBAA Board of Directors,

I am writing to formally nominate myself, Grant Jeffery, Chief Executive Officer of MD ONBOARD, for a position on the Board of Directors of the Asian Business Aviation Association (AsBAA). It would be my distinct honor to continue to contribute to the strategic vision and forward momentum of AsBAA. I bring with me a deep-seated commitment to enhancing aviation safety, operational excellence, and innovation within the business aviation community.

As the CEO of MD ONBOARD, I have had the privilege of leading one of the most innovative organizations at the intersection of healthcare, aviation, safety and security intelligence, and I am eager to bring my passion, expertise, and commitment to the Board.

Over the last two years, MD ONBOARD has addressed the gaps in real-time medical advisory services. We have introduced transformative technological solutions that have redefined medical support across the entire journey — preflight, inflight, post-flight, crew health and safety — as well as an award-winning training program, security intelligence, and real-time reporting and analytics that have mitigated risks and enhanced aviation operations worldwide.

I bring over 35 years of experience in aviation risk management, healthcare innovation, and technology-driven aviation safety solutions. My work has been dedicated to ensuring that aviation companies are equipped with the tools they need to handle medical emergencies and security related concerns, and protect their operations.

If elected to the AsBAA Board, I am confident that my extensive experience, strategic insight, and unwavering commitment to aviation safety will significantly contribute to advancing AsBAA's mission of promoting safe, efficient, and sustainable business aviation across the region. With my deep understanding of the operational, regulatory, and business challenges faced by aviation professionals in Asia and beyond, I believe I can bring significant value to AsBAA, and help the organization navigate the ever-evolving challenges of business aviation.

In the attached document I have outlined my proposed initiatives to strengthen inflight safety protocols, elevate emergency preparedness, and drive continuous improvements across all operational standards. I've suggested specific programs to address crew health and safety,

specifically a focus on the importance of mental health, and the necessity of advanced aviation security intelligence.

Thank you for considering my nomination. I am dedicated to collaborating with fellow board members and the AsBAA community, raising aviation benchmarks, supporting the association's objectives, and advancing the industry's growth. Together, we can shape the future of business aviation.

Sincerely,

A handwritten signature in blue ink that reads "Grant Jeffery".

Grant Jeffery
Chief Executive Officer, MD ONBOARD
