

Personal Statement

Working closely with the other BODs and the executive team I will continue to promote ASBAA through our region and the broader industry bodies including IBAC, MEBA, BACE and EBACE.

We are working to boost membership through active sponsorships in ASBAA events, supporting speaking at ASBAA events and promoting innovation in safety.

The last two years has seen increasing interest at events and membership including higher tier members indicating member engagement in the ASBAA community. There is work to be done to develop our industry in more local markets through support of local chapters. To support these initiatives requires members to support through presence and providing support, this remains a personal commitment from myself and the MD ONBOARD team.

I will continue to work with the BOD to maintain financial stability, stay focused on supporting the industry as well maintain effective governance.
