

17th September 2026

To the AsBAA Nominations Committee,

I am pleased to write in strong support of Kyle James' nomination for election to the Board of Directors of the Asian Business Aviation Association.

I have worked closely with Kyle in his role supporting business development for the Bermuda Civil Aviation Authority and the Bermuda Aircraft Registry. During that time, he has demonstrated a strong ability to build relationships, represent Bermuda professionally in international markets, and identify opportunities that support the continued growth and visibility of our aviation sector.

Kyle brings a valuable combination of commercial awareness, international perspective, and practical aviation engagement. His work has taken him across a number of key business aviation markets, including Asia, where he has engaged with operators, regulators, service providers, industry associations and other stakeholders. He understands the importance of listening carefully to the needs of the market while also appreciating the regulatory, operational and reputational considerations that underpin a credible aviation sector.

In particular, Kyle has played an important role in strengthening BCAA's visibility in Asia and other growth regions. He has helped develop relationships with aircraft operators, leasing companies and industry partners, and has contributed to discussions on the practical issues that affect aircraft registration, business aviation growth, and cross-border regulatory cooperation. His ability to connect commercial opportunity with regulatory understanding would, in my view, be of real value to AsBAA and its members.

Kyle also brings energy, curiosity and a constructive approach to his work. He is willing to ask questions, challenge assumptions respectfully, and look at issues from more than one perspective. These qualities are important for any board member, particularly within an association that represents a diverse and evolving region such as Asia. I believe he would contribute positively to AsBAA's advocacy, member engagement, and efforts to promote the value of business aviation across the region.

As Director General of the Bermuda Civil Aviation Authority, I have seen first-hand the professionalism, commitment and initiative Kyle brings to his work. He has represented the Authority well, maintained important relationships, and consistently looked for ways to create value for Bermuda and for the wider aviation community.

For these reasons, I am very pleased to support Kyle James' nomination to the AsBAA Board. I believe he would be a thoughtful, engaged and forward-looking contributor, and I commend his candidacy to the Nominations Committee.

Yours sincerely,
