Re: Nomination of Natthapatr Sibunruang for the AsBAA Board of Directors

Dear AsBAA Board Election Committee,

I am pleased to submit my nomination to stand for election to the Board of Directors of the Asian Business Aviation Association (AsBAA). My name is Natthapatr "Pat" Sibunruang, and I serve as Chief Executive Officer of MJets Limited.

My career has been built across commercial aviation and business aviation in Asia, with leadership experience spanning airline commercial strategy, aircraft operations, charter, aircraft management, FBO and ground handling, MRO, aircraft sales and acquisition support, and regional aviation infrastructure development. In my current role at MJets, I am closely involved in both day-to-day operational leadership and the company's regional development across Asia.

I would welcome the opportunity to serve AsBAA because I believe the Association has an important role in bringing operators, airports, regulators, OEMs, service providers, and the wider business aviation community together around practical priorities that strengthen the industry. Asia remains a diverse market, and progress depends on greater regional cooperation, consistent operating standards, stronger infrastructure, talent development, and constructive engagement with authorities.

If elected, I would seek to contribute an operator's perspective and a Southeast Asian perspective to the Board. My priorities would include improving regional connectivity and regulatory dialogue, supporting safety and service standards, developing the next generation of aviation professionals, strengthening cooperation among AsBAA members, and promoting sustainable, commercially practical growth for business aviation across Asia.

I am prepared to commit the time and active participation required of an AsBAA Director and would be honored to work with fellow Board members and the AsBAA membership to advance the Association's objectives.
Thank you for considering my nomination.

Yours sincerely,

Natthapatr Sibunruang
Chief Executive Officer
MJets Limited
