

NATTHAPATR SIBUNRUANG (Pat)

Chief Executive Officer | MJets Limited

EXECUTIVE PROFILE

Aviation executive with more than 15 years of experience across commercial and business aviation in Asia. Currently Chief Executive Officer of MJets Limited, leading an integrated private aviation platform covering aircraft operations and management, AOC charter, FBO and ground handling, MRO, air ambulance, aircraft sales and acquisition support, and flight and trip services. Experienced in regional expansion, strategic partnerships, airport infrastructure development, regulatory engagement, commercial strategy and cross-border aviation ventures.

PROFESSIONAL EXPERIENCE

MJets Limited — Chief Executive Officer

Thailand | Current

- Leads the company's overall strategy, operations, commercial development and regional expansion.
- Oversees an integrated business aviation platform including AOC operations, aircraft management, charter, FBO and ground handling, MRO, air ambulance, aircraft sales and acquisition support, and trip services.
- Leads strategic projects and partnerships across Thailand and other Asian markets, with active exposure to Southeast Asia, South Asia and North Asia.
- Engages with airports, regulators, OEMs, investors and strategic partners on business aviation infrastructure, operational development and regional growth.

GoAir — Commercial / Marketing / Operations Consultant

2019

Provided advisory support across commercial, marketing and operational matters.

Jet Airways — Country Manager, Thailand & Indochina

2017–2019

Led commercial and market activities for Thailand and Indochina.

Qatar Airways — Commercial and Marketing Roles

2011–2017

Held progressive roles including Sales Executive, Marketing Officer for Thailand/Myanmar, Commercial Manager – Development & Strategy, and Commercial Manager in Hanoi.

SELECTED LEADERSHIP & INDUSTRY EXPERIENCE

- Leadership across aircraft management, AOC charter, FBO and ground handling, MRO, air ambulance, aircraft sales and flight/trip support.
- Regional aviation development and cross-border partnership work across Southeast Asia, South Asia and North Asia.
- Development of private aviation infrastructure and FBO/MRO projects through engagement with airports, regulators, investors and strategic partners.
- Operational leadership within a business aviation environment accredited to international standards, including IS-BAO and IS-BAH Stage 3.
- Strategic relationships with aircraft manufacturers, aviation service providers and industry stakeholders.

INDUSTRY CONTRIBUTION FOCUS

Committed to strengthening the voice of Southeast Asian business aviation operators and helping bridge the gap between markets across Asia. Advocates practical, two-way knowledge sharing between North Asia and Southeast

Asia, including the transfer of best practices in safety, operations, FBO and ground handling, MRO, aircraft management, regulatory engagement and aviation infrastructure development.

EDUCATION
