

Phil Balmer

Head of Technical for TAG Aviation Asia, and AsBAA Chairman 2024 – 2026. Over 35 years' experience in business aviation, and 30 years in Asia. Licensed aircraft Engineer holding Australia, EASA, and FAA A&P certificates, with maintenance type ratings on multiple types of business aircraft including Bombardier, Cessna Citation, Dassault Falcon, and Gulfstream. Multi-engine, commercial, instrument rated Pilot.

Prior to joining TAG Aviation Asia in 2010, worked in Corporate Aviation Maintenance in Brisbane, Australia, then Avionics Supervisor, Maintenance Manager, Director of Maintenance at Jet Aviation Singapore, General Manager of Jet Aviation Dubai, and Jet Aviation Malaysia.

Served as Chairman of AsBAA 2024 – 2026, Vice Chair of AsBAA 2018-2021, 2022-2024, and Chair of the AsBAA Hong Kong Chapter.

Member of various industry customer committees, including the Bombardier and Rolls Royce.

My AsBAA mission is to ensure continuity of the excellent efforts of the AsBAA Board over the past 2 years. My strong focus is on the Advocacy for the Business Aviation industry across the region, and keeping the industry needs first. My style is to

identify the needs, turn those into actions, and work with the team to ensure those actions are pursued and delivered.
