Ms Penny Lim (AsBAA COO – Southeast Asia) / Whom it May Concern

Re: Letter of Nomination for Yeow Meng NG, 黄耀明

This is to express my intent and interest to serve on the AsBAA Board of Directors (2026-2028) and become a nominee for the upcoming AGM and election.

Some of the projects ideas and initiatives I proposed to contribute towards are:

- 1) Grow the engagement and facilitate appropriate information sharing between business aviation services operators, service providers, regulatory authorities and associated airport infrastructure agencies with the core objective to
 - (a) achieve efficiency for both operators and consumer,
 - (b) safety culture promotion across the ecosystem, and
 - (c) deliver business sustainability outcomes in concert with national economic of each country.Traction gained in pursuit of common operational goals is where the rubber-meets-the-road for AsBAA members looking for business sustainability.

- 2) Build a pay-it-forward culture supported by a platform within AsBAA that facilitate AsBAA members themselves to participate and contribute as effective ambassadors for business aviation in all segments of the Asia BA industry.

Contributions can be safety or operational efficiency advancements through various technical disciplines, sponsoring educational initiatives or targeted mentoring supported resource-wise by AsBAA directors and executed through AsBAA members giving them directly recognition for their work. This goes beyond creating awareness and put members on map as the industry's inspiring role model, further enhancing value and recognition to their membership status, not to mention a self-fulfilling and cascading effect towards advocacy of business aviation.

- 3) Help bring representation and advocacy of legitimate Part135 operators directly to public consumers by creating a framework to bridge existing protocol abiding Part135 operators with aviation authorities and the public through establishing a publicly available and accessible "validated by aviation authorities, currently in approved operation & trusted good standing" list online.

Thanks & Best Regards

Yeow Meng NG
